FINISHES

MATTE BLACK

Matte Black is subtle yet elegant. This range dares to push the boundaries of luxury tapware, in an ever-changing landscape where design trends shift away from traditional Chrome. Meir’s renowned electroplated matte finish is the world’s most respected and distributed offering in our range of finishes.

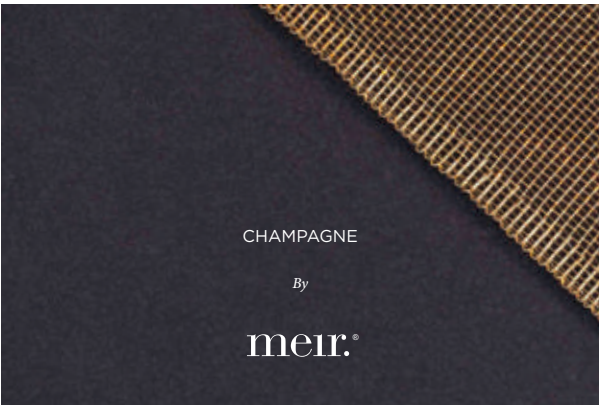

TIGER BRONZE

Utilising the natural charm of bronze and copper, Tiger Bronze adds unique character through its brushed black undercoating and clear lacquer coating. The brushed gold tones work with a wide range of colours, and provides an amazing highlight when paired with natural elements or soft pastels.

CHROME

The flawless finish of Chrome is timeless and commonly referred to as the obvious choice for renovators, builders and home-owners alike.

CHAMPAGNE

Our signature Champagne, finish is the most elegant offering in our range. A sophisticated combination of Chrome and Rose-Gold makes the Champagne the unmistakable choice for an ultra-premium experience.
